#### The Dance

HAROLD KRLUTZBLRG-Guild Theatre

The Guild started its series of Sunday night dance recitals with two present tions of Harold Kreutzberg. The first one, last Sunday, October 17, gave eve indication that the second performance, this Sunday, October 24 should bring full audience to see one of the foremost men in the field of dance.

Mr. Kreutzberg's first program included a broad selection of dances from the tivities are given at inconvenient heavy tragic such as Orpheus' Lament for Eurydice and Scenes from the Oresta of Acschylos both by Wilkins, to the playful moods such as Merry Pranks of T. Eulenspeigel by Wilkins The Barcarole by Scarlatti, and the Vagabond Song L We have about as much as we Smetana. In the latter type Kreutzberg is superb. They are compositions that are well focused, and built upon an unfailing technique that fuses elements of modern and ballet techniques. The German dancer is exceptionally eloquent with his hands and head.

In their present stage of development Mr. Kreutzberg's tragic dances are less successful. There is an unfortunate use of theatrical devices that bespeak the good showman and not the dancer. This is not true of all his work in the serious vein. The Romantic by Wilkins and the Master of Ceremonies from Gizzi's Turandot by Scott rank easily with the gayly spirited numbers. In the first he has composed a unique pattern of contrasting pictures of tense and relaxed muscle tones. In No, the opportunities could be the Master of Ceremonies he utilizes the movement of the incomparable Kreutzberg

In the Galleries

From the sunny south young John McCrady has come to the Boyer Galleries at 69 East 57. Street, where his present exhibition is scheduled to remain until No, I do not-but if facilities for October 30. His debut is one of the most startling of the month, for Mr. McCrady wise to one of Macy's little tricks already. My contact with other universities and brings us veritable gems of southern life. Intermingling realism, and a brilliant fantasy, he hints with a perfected form, and an eye to detail and color. "Swing me that they have received implicit instructions ful whether or not the students Low, Sweet Chariot" is certainly one of the most impressive of his pictures in the present exhibition. It depicts an old negro dying. Black angels tear through a brilliant sky intent to take his soul to heaven, while flaming red devils struggle in opposition. Of equal merit are: "Woman Mounting a Horse," a comic study, "The House on the Hill," and "Town Square," which embodies miraculous expressionism, as well as a superb portrait of the artist's father. In his manner of painting the negro, Mr. McCrady recalls Marc Connelly and Roark Bradford's whimsical subtleties. Only an artist endowed with an unusual gift of visual imagination could give us such deep harmony, and original interpretations.

Of especial interest to art students are William Palmer's sketches on view at outfit, entirely on the house. What he was doing knows many people in other colleges the Midtown Galleries, 605 Madison Avenue, until October 28. The exhibition in the layette department I don't know, but he I can say that practically none of contains preliminary sketches, drawings and photographs made of "The History overheard a conversation between a telephone my contacts know any Barnard girls of Medicine" for panels in the Queens General Hospital, and in the Post Office girl getting information and a customer who was other than myself. This seems too in Washington. This collection undoubtedly establishes Mr. Palmer's reputation Bulletin is conducting a poll of Barnard announcing her eligibility for the Macy baby bad. Barnard should broaden out, as a superb anatomical draftsman, and as an especially gifted artist in the medium of group drawings in light and shade. The large panel entitled "Controlled and Uncontrolled Medicine" is certainly the most powerful, for the expressions of Probably not, but who wants his figures reveal the entire story of scientific beauties. The smaller studies of them? New York is enough for Pasteur and Koch are true masterpieces of detail and chiaroscuro.

For lovers and eighteenth and nineteenth century painting, there is quite an international exhibition at the John Levy Galleries, 1 East 57 Street, which i scheduled to remain indefinitely. America is represented by George Pierce Innis and the American-born Aston Knight and his son Astor. The Knights are wel known for their magnificent landscapes, and in this instance Astor far surpasses his father with a splendid drawing of a French girl tending her provincial garden Also present in the exhibition are portraits by such English masters as Sir Gilber Stuart, Thomas Sully and Gainsborough.

#### Theme Of Book Chosen; Try-Outs To Be Held Early

By Helen Rome

Junior Show, which until recently was nothing but an embryo, is beginning to expand, and show definite signs of life, according to Dorothy Smith, chairman. The heads of the various committees have been chosen, and, at the moment, they are selecting their members. A sign-up poster has been placed on Jake, and it is hoped that every Junior who has talent, or thinks she has, will sign up. So far no name has been given to the Junior's pet child, but the book committee has already chosen the theme of the show, and is hard at work filling in their outline with snappy songs and witty sayings.

An effort is going to be made this year to have the talent try-out earlier than usual, so that as soon as exams are over, and everyone, we hope, is eligible, the show can go right into rehearsal. With this in view. Miss Smith suggests that all those who would like to dance in the Show, whether they know how to tap or not, take clogging this term as their required gym.
