Life In Budapest And America Drive Begins For Scholarship Funds

Should Be Able To Take Advantage Of Opportunities At Barnard

NOTES COMPETITION FOR GOOD STUDENTS

Praises Work Done By Curriculum Committee In Surveying Student Opinion And **Making Recommendations**

The urgent need for funds to provide for a sufficient number of scholarships so that talented but needy students from all parts of the country might benefit from the educational advantages offered by Barnard was stressed by Dean Gildersleeve in her annual report to President Butler. By restricting the enrollment only to those students who are able to pay the fees, Dean Gildersleeve contended, Barnard cannot make sure provision for the maintenance of the that "it is using its Faculty, equipment, and endowment to

Youth an	d Elections	75

Within the seclusion of our academic life, on which is naturally expended the larger part of our energies, we are inclined to forget the world outside and to dismiss its affairs as being none of our concern. Such a course of action, however, belies the alertness of mind which is presumably characteristic of the college student. Sooner or later we shall have to adopt the world beyond the university walls as our environment; it is to our advantage if that environment is one of opportunity and freedom.

The approach of election-time is always a reminder of citizenship, its responsibilities and rewards. Whether the elections are taking place in the field of student government or in the broader sphere of state and federal politics, the franchise is a possession which should not be neglected. The right to vote guarantees to the individual the chance to express his opinions in practical fashion, and to guide the government—undergraduate or national—in the formation of policies.

What are some of the issues in the November elections? For most students the problem of jobs, not only for the people who are unemployed at present but for those who may join their ranks next year, will appear to be the most vital. There are also the questions of peace and foreign policy, of labor relations, relief, and civil liberties. In constructing a point of view on any one of these pressing problems the young voter must adopt a forward-looking policy. We all know that conditions are unsettled, that the times are restless and changing. If our government is to give the maximum amount of help to its people, from the newly-graduated college student to the poverty-stricken farmer, then we must elect to office progressive and liberal statesmen.

To capture the elusive definition of a liberal is a difficult feat. It is easier, however, to sense the essential spirit of liberalism when it is present in an individual, for that individual is constantly in search of methods, both old and new, with which to adapt the changing circumstances to the people's needs.

We urge those members of the student body who are fortunate enough to possess the vote to register this week and to exercise their franchise. Amid the excitement and furor of pre-election campaigning do not allow yourself to be swayed by soapbox oratory. Study the issues and pick the candidates who are anxious to cope with America's problems in the most humanitarian and progressive way.

Verities

by Mildred Rubinstein

Academic Epidemic . . .

The season's in full swing and we've been going around testing the academic tempo to see whether everybody has actually settled down to the old routine or not. Our conclusion: everybody finally has, although the process was punctuated with difficulties.

The student enters the new semester with a neat and comparatively uncluttered program, the result of many long hours of concentrated thought, the exercise of the faculty of discrimination, and the exercise of the faculty of Barnard College. No sooner does she escape from the Scylla and Charybdis of program-making, otherwise known as advice and approval, than she finds herself just as apt to be wrecked on the reefs of sections and supplementary hours. The faculty, the gym department, and the jury of her peers seem set on making her orderly schedule a thing of rags and tatters. Section I of economics is absolutely closed; tenikoit is open only to those who would care to perform their gymnastics in the wee small hours of twilight; and the third point of a course, given at an hour to be announced, is announced for some occult o'clock because, perforce, two members of the class cannot possibly come at any other time.

Solution . . .

One courageous sophomore conducted a heroic struggle against at least the first of these fates. She simply refused to accept the section listed on her program and went to the one she had requested in the first place. Of course, the instructor had no card for her, and she feigned complete ignorance as to why that card was missing. After two meetings of the class, said instructor must have felt that it was time to remedy his deficiency, for he appeared with a card for this subtle scholar and nothing more was said about the matter. Moral: you too can made red tape blush if you try.

Seminar . . .

Then there is the senior who upset the big, bad seminar, and saved her classmates from its dire clutches. Seminars are the last straw that breaks the program's back. Seniors who are taking the seminar we have in mind were notified of the first meeting of the course through student mail. Our senior, who had a conflicting class, sent a note to the instructor informing him that she would be unable to attend for that reason.

Came the meeting and the instructor, wish ing to set a permanent hour for the seminar, found that he was unable to do so because one member of the class was missing. He made several disparaging remarks about seniors and their unlimited cuts until he remembered this student's excellent excuse, whereupon he sent his assistant to the other class to ask the senior whether a certain hour would be satisfactory. However, unavoidable exigencies made our heroine late to class, and she was therefore not present at the time the assistant arrived. The professor's ire rose several degrees at this apparent duplicity. The student suffered for it, too, for the seminar was scheduled for 6 to 8 o'clock, directly following a 4 to 6 o'clock class of hers.

The professor didn't like it either, for, at the second meeting of the class, he requested that students please arrange to meet him at his downtown office at 5—and was there anyone who would be unable to make it? At first it seemed as if this drastic measure would really go through, but our undaunted dissenter threw her second bombshell into the class, reminding the professor of her 4 to 6 o'clock engagement, and thereby winning the undying gratitude of her classmates. The effect on the professor is not known.

The Lion Roars . . .

It used to be one of our eternal verities that the college across the way was all thumbs when it came to football, but we must, however reluctantly, doff our new Schiaparelli bonnet to the team that seems to have found its land legs and is busy making the other leading men's colleges of the East retire to the menagerie in shame.

Second Balcony

Big Blow-Maxine Elliott Theatre

Currently showing at Maxine Elliott's Theatre is the Federal Theatre offering Big Blow, a rehashed and exceedingly diluted Tobacco Road. Big Blow is dramatized from his own novel of the same name by Theodore Pratt. It is the story of a brave pioneering family of three who come from Illinois to Florida, for the dual purpose of curing an ailing mother and raising peas and beans. Members of the family, one Wade Barnett, the symbol of clean living and American frontierism, his mo- that, to our mind, includes all ther Mrs. Sarah Barnett, patient college students. You should see Big and dying, and his great aunt Jane Barnett, spry old critter with a penchant for firing her long rifle, encounter in Florida such various and sundry difficulties as crop stealing, insect plagues, a proposed lynching of an old negro, and a first rate Florida hurricane. From this last derives the name of the piece.

Big Blow is not among the best of many fine productions that have ment of traditional stage settings as graced the Federal Theatre's few of such novelties as we saw in Dr. years on Broadway. It is not among Faustus.

march up and down the stage are too much of the caricature to be completely convincing; and because those individuals who symbolize the evils of race prejudice, ignorance, and downright bestial meanness lack the conviction of reality, the message of the play loses a much-deserved vitality. Big Blow, on the other hand, deserves a hearing from every college student interested in the stage or in current American life; and Blow because; and this is unfortunately a rare quality, it has something to say that is not only true but significant; because, if the message is slightly blurred by lack of author's craftsmanship, most of the players make the very most of what is given to them; and because the staging proves that Federal Theatre stage crews are as adept in the manage-

Art

Whitney Museum

Painters of the region west of the Mississippi have pooled some of their canvases for the current exhibition at the Whitney Museum. The show is intentionally and consciously a regional one. Great though the range may be in technique and sentiment, the artists are alike in their attachment to the ideals and actualities of their native

Landscapes, as one might expect, are by far the most popular subjects. The paintings have been arranged into eight geographical groups according to the residence of the artist. Some paintings are se-. verely geometrical, some realistic, some show the blare of the city. others the dreariness of rural lifetrying to reproduce and interpret the spirit of the land.

Fortunately there is a lack of work exhibited. Still, each artist regards some part of the west with grown up in it, lives in the midst of it. Forgivable then, is a subtle kind industrial civilization of ours. of nostalgia that is particularly pres-

ent in the rural scenes.

What a great many of the artists are especially aware of is the penetration of industrialism into the west. They realize the incongruity of the two kinds of life. Dale No chols, in his painting "Clearing Tracks." has emphasized this point strikingly. He shows a heavy locomotive lumbering along, spouring clouds of smoke in the quiet whiteness of a snow-filled valley. In contrast to this monster of industrialism is a small horse-drawn sleigh in the foreground. John Steuart Curry's large portrait entitled "Ajax" is a rather sentimental glance at the past. The painting is of the buffalo that is no more and whose departure has indeed changed the countryside.

One of the most admirable canvases in the exhibition is Fletcher Martin's "Trouble in Frisco": showing industrialism in the western city. overtaxed sentimentality in the A powerful, circular line movement makes the picture of two men fighting in a tank a very gripping one. particular loyalty because he has Strength of form and stroke express the character of the energious

To the Editor Barnard Bulletin

Dear Madam:

Since there seems to be some misunderstanding about the article which you have published about "La Societe Française" I wish to make clear the following points:

1. I would not think of making any comparison between "Tristan et Iseut," the pageant which is going to be staged by the club, and Greek Games since a club affair in which no more than twenty members can take part and which is going to be given at Brinckerhoff Theatre is obviously different from an event which is worked out by two classes with the help of practically all the departments of the college.

2. Lily Pons has not been invited yet but I said that Miss Pons would probably accept if asked because she is from my home

Sincerely,

(signed) Marianne Pilenco, President of French Club

Hold Quarterly Tryouts Today At 12 In Office

All candidates for the apprentice literary staff for Quarterly will meet today at noon in room 403, Barnard Hall.

At that time students who wish to belong to the staff of Quarterly will be asked to submit a piece of original writing and a criticism of a back issue of Quarterly. These contributions will be read and commented upon by old staff members.

HE DOG pictured above has an ervous 1 system amazingly similar to yours, with this difference: It is the nature of the dog to rest when he needs rest. It is the nature of mankind to drive on...until nerves jerk and twitch...until you are cross and irritable...tired out without knowing it. No

matter which of the common forms of tenseness you feel, try this experiment: Ease up and enjoy a Camel. Camels are made from costlier tobaccos. Smokers find that "Let up-light up a Camel" puts more zest into life, and that Camel's costlier tobaccos soothe their nerves.

MILLIONS FIND

"LET UP-LIGHT UP A CAMEL" **PUTS MORE JOY INTO LIVING**

TERRELL JACOBS, lion trainer, and "Tony" Concello, circus aerialist (left), both testify to the value of "Let uplight up a Camel." "Animals can spring into instant action—then relax," says Jacobs. "We are apt to get our nerves all wound up with our tense way of livingcan't let go. I find that Camels soothe my nerves." "Terrell's right," Miss Concello says. "When my nerves are tired, Camel helps them to rest."

> FRED L. McDANIEL, cowboy (right), says: "When I feel nervous I let up, and light up a soothing Camel. Camels are mild-I smoke 'em steadily. They are so comforting, and never tire my taste."

and Student Loan Fund"

purposes—such as the expenses of Friday. our Fund effort-the College is closing this fiscal year with a deficit of over \$46,000 on operating expenses, instead of a surplus, as we The Athletic Association wishes of the affair. endowment for extending and their place. strengthening our instruction, for our international work, and for scholarships.'

Dean Gildersleeve commented upon the administration of the College during the past year, when the affairs of the Undergraduate Association were conducted by Elspeth Davies. She particularly praised the accomplishments of the Undergraduate Committee on the Curriculum which, in her opinion, "did a sound and interesting piece of work in surveving the best student opinion and making suggestions for improving certain points in our courses and policies." It is planned that these 'courses and policies" be considered by the "appropriate Faculty committees" in the fall.

However, in connection with the question of improving the present method of advising students, it has been thought inadvisable to appoint a "Counselor" at the present time, "centering at first on the curriculum. in Europe. Tea will be served. this advice can broaden out to include the whole question of their adjustment to college life and work and the aid which our various specialized offices can provide."

Dancing Classes To Begin Monday
