#### Student Views Europe

No doubt many students have wondered, during the past few days what significance, if any, the recent events in Europe have for them. We all realize that the tenseness across the seas has temporarily subsided, that an international conflict has been avoided. It is important, however, not to forget that fascism has scored a tremendous diplomatic victory over the democracies and that, in consequence, the prestige and power of democracy have suffered another blow.

To express sympathy and regret for Czechoslovakia in its disaster, without acknowledging that democracy everywhere is affected, is to ignore the fact that the world today consists of a community of nations closely bound to one another by economic and ideological ties, and by the modern methods of communication and transportation. The magnificent white buildings at Geneva, constructed within the past few years to house the new machinery for solving international difficulties, have become a museum of idealistic hopes.

That the United States feels itself a part of the world community was clearly demonstrated last week. President Roosevelt's two messages to the key figures in the international crisis, urging that the Czechoslovak-German clash be peacefully resolved; the Save Czechoslovakia meetings held all over the country; the Washington journey of student leaders from New York State asking our government to use its influence to maintain peace, were all based on a common desire for world peace. In the hour of crisis Americans found themselves actively concerned with the fate of their fellow-men.

For the moment we have a truce, achieved only at a huge cost in Czech suffering and democratic humiliation. Nevertheless, the advocates of freedom and justice both in the national and international spheres must not abandon their faith in collective action. Democracy must be guarded against further attacks.

In contrast to the methods of education prevailing in totalitarian states, American students have freedom of thought and inquiry. The steady decline of democracy in Europe warns students that they must resist propaganda and defend democracy if they wish to keep this precious heritage.

### **Second Glances**

Barbara Reade

#### Prologue

Now that we have begun to recognize freshmen as distinct individuals instead of a mass of new faces we can be sure that the year is well under way. Before all of the newness has worn off there are several innovations this year that bear looking into. First we feel that it would not be amiss to remind all the newcomers that due to the new and more extensive plans for orientations on the part of the faculty and older classmates they have received a super send-off on their new life. We feel a little proud of the fuss that has been made over them and the way that they have responded. The fact that they have made the acquaintance of Miss McBride the first week of college instead of waiting until they were sophomores like some of us and the whole idea of a special adviser to help Miss Gregory with the freshmen seems to us to be particularly gratifying, not to mention the special tables in the cafeteria and the teas for new dorm students.

#### In Retrospect

Dean Gildersleeve probably realizes that some of us, despite the excellent advice on all aspects of college life that she gives in her customary address to the freshmen on the first assembly day, will most likely rely on learning the hard way, by experience. We listened to the address this year, rather self-conscious in our cap and gown. We felt that of all the speeches the freshmen have listened to this one is indispensable. The only thing that we bewail is the fact that our memory, three years ago, was not retentive enough to remember all she said, for it would have helped us more than we can say.

#### Extra-Curric

Concerning this we have two things to add. One is about our own hobby, Press Board. This you know is the organization that tends to the distribution of news of Barnard College students throughout the country. Due to the type of work it does it is necessarily a small organization, but new members are added every year. A notice about it will be posted later. But enough of extracurricular talk for there may come a day when it becomes hard to believe that you don't come to college for the courses but for the clubs, especially around Greek Games time, but then it's a committee meeting. Remember though all other extra-curricular activity possibilities are open to old as well as new students.

#### Mores

As vet suits are still so new that the leather buttons creak and saddle shoes are still clean. This we know will wear off. The "I know I look as if I'm about to take a shower" hairdo has not yet scaled our wall except in two or three places. It is interesting to speculate as to what this year will bring in sartorial innovations. The pyjama top and skirt short-cut for hurried dorm students seems to have passed out and there is a noticable lack of calots (Orange peel "hats") on the campus this year but the "I come from the old country" tied under the chin is still with us, thank goodness. This is still the most effective way of keeping both hair and feelings unruffled in a rumble seat for football and proms. The most pressing questions now are: Will the strapless or hoop evening gown (both hard to manage) appear at Harvest Hop? We still don't like the idea of going through an evening with elbows at our sides or getting into a telephone booth with a circumference of eight feet. Where oh where are the beer jackets of yester year? And who says "How you talk!" anymore? Then there are those over worked words "Definitely!" and "Naturally." If anyone has substitutions they will be gratefully received. But definitely!

#### Vacations

This year the campus has a truly international air about it; not only do we have our usual quota of foreign exchange students but many undergraduates have brought back an accent, first-hand opinions of foreign capitals and clothes with a Parisian line from their sojourns abroad. We feel that this is the ideal way to spend a summer, and have been getting our Europe secondhanded from them, but definitely!

## **About Town**

#### Cinema

#### If I Were King-Paramount

If I Were King combines the best and the worst features of a Hollywood film product. Director Frank Lloyd has dressed his players handsomely. Beggar and noble are replete with the requisite rags and riches Medieval Paris has been re-created in terms of camera angles and celluloid. Obviously no expense has been spared in this story of Francois Villon, vagabond poet. who on a monarch's whim was to be Grand Constable of France for seven days and the hangman's victim on the eighth. Like the majority of period offerings from the major studios If I Were King is a smooth glib production with an air of authenticity about its costumes and sets.

The only discordant note has been struck by Basil Rathbone who.

stooped and ugly, with a cack laugh and a vicious leer, ma Louis XI his best performance . date. Mr. Rathbone has perfected a brilliant characterization which in its very brilliance emphasizes : " inadequacies of Ronald Colman end Frances Dee, the stars. With in Mr. Rathbone If I Were King is gav make-believe not taken too seriously by either audience or stars With Mr. Rathbone's sterling performance as a scale of comparison Miss Dee's heroine is merely a wooden image of a beautiful lady in love; while Mr. Colman appears to be playing, to the best of his considerable abilities, not François Villon but Ronald Colman. Into common taverns and filthy jails he brings the sanctifying aroma of the drawing room. But we have always liked fairs

tales. E. H.

#### In the Galleries

Those who are interested in water colors will find something unusual at Carroll Carstair's Gallery. Eric Goldberg, a contemporary Canadian artist, has about two dozen of his paintings on exhibit there until October 22. He achieves a unique effect, very much like the soft luminosity of pastels, in the medium of water colors. In the landscapes. done mainly in the Laurentian Mountains, there always seems to be a mist over the scene. The transparent quality of the usual water color painting is lost as well as the somewhat rugged characteristics of the region he portrays. Instead there is a mystic air about the countryside which is quite lovely. For his new style, Mr. Gold-tists, The paintings of Luks parberg uses a very wet paper, even ticularly and the familiar Dempsey resorting to soaking the sheets in his bath tub at times to get the desired effect. In the painting of

flowers the artist excels, and it is regrettable that he has not concentrated more on these than on bathing scenes.

Across the street at the Durand-Ruel Galleries, an exhibition of paintings by Armand Guillaumin is current. Guillaumin, a French impressionist of the late nineteenth and early twentieth centuries, was characteristically concerned with the effect of sunlight on landscapes. Those who enjoy the vigorous style and brilliant coloring of the impressionists might spend a pleasant half hour or so at the exhibit.

The current show at the Whitney Museum is an interesting one. selected from their permanent collection of the work of American arprize-fight lithographs of George Bellows are pleasant to see again.

#### Music

#### Town Hall-Marcus Gordon

Marcus Gordon is one of those voung American pianists who startles his audience by performing beautifully. He is possessed of a most extraordinary technique; the Leo Arietta and the Scarlatti Sonata in A Major with which he opened his program served to demonstrate a clean, strong approach and a staccato which transformed the piano for the moment into a harpsichord. In the Brahms Variations on a Theme of Handel he displayed tremendous power and, in contrast, a pianissimo which was both delicate and controlled. This type of music, variations on a theme, presents difficulties of interpretation, because the theme is apt to be drowned in the overlying figuration. Mr. Gordon, however, overcame this by careful use of dynamics and a certain transparency of playing which is perhaps his most admirable trait. hear more of him.

A group of Chopin concluded the first half of the program. Here the pianist first revealed a tendency towards stiffness which was not noticeable in the other selections. Chopin, to be effective, must be gracious, lilting, played with utter abandonment and freedom. The Fantasy Op. 49, that most intense and expressive of all Chopin music. was played well, but not with inspiration by Mr. Gordon. It almost seemed that he attempted to substitute strength and grandeur for intense emotion.

After the intermission came a group of modern compositions by Ravel, Medtner, Balakireff. Brilliant and complicated, they were well suited to the pianist's style. Although not a thrilling artist, he is a fine and capable musician, and Town Hall audiences will no doubt

#### **Transfers Find** Barnard Different

Continued from Page 1, Column 3) over the country were present at the tea Wednesday. The University of Southern California, which was Lorra LeLash's former Alma Mater, was one of the most distant of

the schools represented. Each of the transfers has a transfer sister, a Barnard student who is in the same class and preferably from the same school. This has been organized by Jean Kranz, head of the Transfer Committee. She is assisted by Virginia Wodtke, Marion McGovern, Lorraine Nelsen, Joan Thonet, Jane Flickinger, June Crolly, Adeline Bostelman, June Williams, Ann Richards, and Carolyn Duncombe.

Among the guests were Professors, Peardon, Lawrence, Lowther, and Smith.

# DONT LET TENSION "GET" YOUR NERVES

HIS Collie dog has a nervous system that ▲ is remarkably similar to yours. Like yours it is delicate, complicated. But here is where a big difference comes in: The dog can spring into flashing action - and then relax, while man's nature makes him unkind to his nerves. All too often, we work too hard, worry too much, are fatigued or sleepless from strain. Nerves cry for rest, but we do not hear. Don't let tension

"get" your nerves. Give your nerves a frequent rest-take time for a Camel. Camels help you to remember that you need a brief bit of leisure, for they are mild and mellow, a supremely enjoyable cigarette, made from costlier tobaccos. Smokers find that "LET UP-LIGHT UP A CAMEL" puts more joy into living, and that Camel's costlier tobaccos are mild and soothing to their nerves.

## There's more joy in living when you "Let up—light up a Camel"

MISS OLLIE TUCKER (left), office manager, says: "I can't afford to get nervous. My method is to let up, and light up a Camel. It's a grand way to smooth out tense nerves. I smoke Camels a lot. They're so mild and flavory. Camels are soothing to my nerves. Most of my friends who seem always at ease prefer Camels."

RALPH GULDAHL (right), golf champion, reveals an "inside" story. "I've learned to ease up now and again—to take time for a Camel. It's the little breaks in daily nerve tension that. help to keep a fellow on top. Smoking a Camel gives me a feeling of well-being. Here is a ciga-

rette that is soothing to my nerves!"

and so is he

## A. A. Sponsors Annual Sports Week To Promote Rosy Cheeks, Slim Waistlines Singing Class

by Louise Volcker

The Athletic Association's anmual sports week, like the mythical prosperity, is just around the corner. However there is no myth about the Athletic Association have at shifting scenes behind the sports conducted by Miss Gena Tenney of the Sports' Week. It really is, has been and will be. All you freshmen and transfers who have not yet been initiated into the rites of a Barnard Sports' Week, be forwarned. All, even the most ladylike of you, will be expected to unbend and partici-

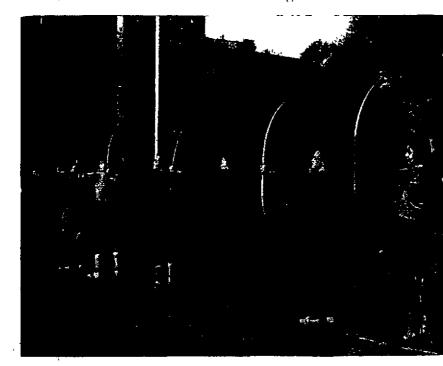

Just to prove to the freshmen that they are an important part of the program, the association has planned a special picnic up at Barnard camp in honor of them. Though it is in honor of the freshmen, everyone is invited to come and help her younger sisters do away with the doughnuts and cider.

The Harvest Hop on October 22, marks the official opening of Sports Week, and suggests the way to limber up those muscles that you'll be the only eligibility requirements.
