Five clubs have already answered the appeal made by the Community Chest Committee for support of the drive. The Spanish Club, La Société Française, American Student Union, the International Relations Club, and the Junior Show Committee have promised that they will urge their members to contribute to the Community Chest and that their publicity managers will provide one poster each to publicize the drive.

The pledge cards were distributed to members of the centralcommittee and their sub-committees this week. There will be a booth on Jake every day between 12 and 1, where students may file their pledge cards and hand in their money.

President Stresses Importance Of Personalities In History; Cautions Against Emotionalism

By Helen Kandel

"Personalities in history are the important things," President Nicholas Murray Butler told the all-college assembly last Tuesday. "With a knowledge of these personalities, their excellences,

heir achievements and their failures, and with a full grasp of their principles and their success or failure in influencing their fellow men, a new outlook on history is revealed.'

Eligibility To Be Checked

Club Heads Must **Meet Committee**

Bulletin

Every organization, club, committee, or publication must file its eligibility list through its secretary or chairman next week. Each person responsible will be notified concerning time and place by a member of the Eligibility Committee and is expected to come ready to check all members' eligibility against the previously filed list.

The chairman is responsible for filing and notifying the members of the central committee; she must also be present to verify the lists of sub-committee members. The tentative program follows:

Monday: Miscellaneous Committees - Book Exchange, Columbia University Christian Association, Curriculum, Eligibility, Glee Club, Loan and Building Fund, Social Committee, Social Service, Wigs and Cues.

Tuesday: Publications—Bulletin, Mortarboard, Quarterly, Press Board.

Wednesday: Budget Commit tee, Community Chest, Honor Board, Rep Assembly, Residence Halls, Student Council-members and appointees.

Class organizations: Junior Show, Senior Proctors. Senior Week.

Friday: Clubs-Religious and language, A.S.U., I.R.C., Classical, Fine Arts, Music, Physical Science, Pre-medical.

A.A. Board, Camp, Greek Games, Health, Sports.

On 'The Answer'

The entire college is invited to attend a lecture by Annie Nathan Meyer next Tuesday in the College Parlor at 4 o'clock. At the meeting which will be held Occupational Meeting under the auspices of the Menorah Society, Mrs. Meyer will give a review of Ludwig Lewisohn's latest book "The Ans-The Deutscher Kreis will hold wer" in a lecture which she calls Every Young Graduate Should

President Butler showed how history has been changed by these great personalities who crop up almost by chance in times of stress, and without great opportunities of birth or fortune, influence and change the world as their ideas spread.

Biographies Increase

Today there is a wide-spread desire to learn more about the men who have made history and to try to understand the great personalities who have made modern life. President Butler added. He cited several men whose biographies have enriched present-day literature, and which are eagerly read "by those who feel instinctively that they have not grasped the full significance of historical leaders."

The anniversaries of Lincoln and Washington which America celebrates this month provide a good introduction to the study of great personalities of human history, President Butler asserted, since no other men in world history have won so much affection, or have so deservedly had their birthdays marked by national holidays.

Discusses Presidents

Washington and Lincoln were responsible for the building and preservation of the nation, President Butler pointed out. However he stated that Washington was neither a philosopher nor a political theorist, although he had a clear understanding of political philosophy. But "his personality made him the father of his country; his personality made his constructive ideas be built into the constitution."

It is to Abraham Lincoln, as the man who saved his country, that people are turning toward more than ever, President Butler showed, citing as a proof, the almost weekly additions to the storehouse of literary interpretations which are demanded by an increasingly large public.

"Lincoln had to deal with the (Continued on Page 4, Col 4)

From The Editor:

In reply to the letter which reprimands Bulletin for printing such "painfully revealing" answers in last issue's Query column, we say it is too bad that quips and coyness are the only response to a serious question about the state of our lives in war

Even more painfully revealing, however, was the admonishment of the two seniors who dolefully cry: "We, at least, don't want to hear" about those inconsequential answers. The old story of the ostrich with his head in the sand can be vigorously applied to the two students who think that coyness can be overcome by neglect. If this is the way Barnard responds to a serious question, it is Bulletin's function as an organ of student opinion to report that response.

Perhaps the "cross section of Barnard student opinion" will become more enlightened if a greater number of the concerned students participate in the forums and discussions on the war which are held in the college, and impress on the others the grave importance of treating seriously those problems which are serious. We cannot condone those who shamefacedly say: "It's too bad.":

Youth Congress

The Youth Congress Citizenship Institute in Washington last week provided more than enough copy for editors throughout the country. Most of the publicity related to charges of Communist membership in, or control of, the organization.

Barnard delegates to the sessions assure us of the basic worth of an organization that makes it possible for innumerable young people from rural and urban communities, from colleges and workshops, religious and health groups, trade unions and political organizations to meet together, to discuss their common problems and to arrive at a workable plan that all of them can follow in an effort to improve their lot.

We judge the Youth Congress from the positive statement of its platform and its achievements, not from disgruntled, flamboyant charges of some of its sensation-seeking critics. That the Youth Congress refuses to succumb to those who would have it expel the few Communists from its ranks, reemphasizes the Congress' adherence to the American principles of tolerance and civil rights. That the Youth Congress continues to put forth a constructive program of jobs and education for the young people of this country, in the face of all the disruptive activity of its opponents, is an amazing tribute to its sincerity and resolve.

To feel superior when greeting an acquaintance, you must be first with: "What's new?", "What do you know?", or "What have you been doing that's ex-The direct accusation makes whatever he knows or had been doing seem inadequate, so he replies, "Not much;" thus admitting his inferiority and making what you know seem, by contrast, well worth telling. It always works.

Long before we ever saw a psychology book, we read an article entitled "How to Feel Superior" by an author whose name we can't remember-but whose wisdom we now hold indisputable. Once, as an experiment, this gentleman spent several hours biting horses and kicking policemen and waited hopefully for someone to say, "Well, and what have you been up to?" But when it happened, he told his questioner, "Nothing much." Whereupon said questioner felt superior and gayly told what he'd been doing, which was—having lunch.

The Withering Salutation

"Hello there," is a baffling inferiority superiority phenomenon. Why "there" makes salutation condescending is a mystery. The secret is not the hint that the name has been forgotten because the effect is identical in: "Hello there, Alphonse." Those so greeted cannot, by any known retort, ease the resulting feeling of inferiority. "Hello there yourself, too!" merely advertizes it.

Superiority By Silence

Lulls in conversation give you a good chance to feel superior. You can hum softly, start drumming on the nearest piece of furniture, become absorbed in a magazine, or retire into yourself as though thinking important thoughts. Thus showing others that you are not straining yourself in an effort to think of something interesting to say. This puts it up to them.

A handy device (acquired from the now forgotten author we mentioned a few paragraphs back) is pretending you did not quite understand a feeble or unhappy remark and asking for it to be repeated, particularly when the remark was intended to be funny but wasn't. This technique is unusually effective in telephone conversations.

Offensive Tactics

"What's good about it?" like "What do you know?" sounds like an indictment and leaves the mind of the questionee a vacuum. Approval by another of any place, person, idea, book, or movie gives you the opening. If he says it is good, ask him calmly but firmly, "What's good about it?" He'll be sorry he mentioned it.

If these methods of feeling superior don't bring you results—we won't be able to understand it. They work perfectly on us.

That's how these three members of the U. S. Antarctic expedition tell of the advantages of their favorite cigarette...slow-burning Camels. Richard Moulton, senior dog-driver (center), sums up when he says: "Slow burning is my measure of a milder, cooler, more flavorful smoke. I'd sledge a mile for a Camel." Nothing destroys a cigarette's delicate elements of flavor and fragrance like the excess heat of too-fast burning. Cigarettes that burn fast also burn hot. Camels are slower-burning...milder, mellower, and - naturally-cooler! Try Camels. Find out for yourself how slow-burning Camels give you more pleasure per puff...and more puffs per pack-more actual smoking (see right).
